

OPEROO – Platform to support effective communication

Early next year parents will receive an email from Operoo (previously known as Care Monkey) asking them to create a profile for their child.

Operoo allows the school to automatically collect electronic medical and emergency contact details from parents. Parents can include any medical information and attach a plan (e.g. asthma plan) from their General Practitioner. Permission forms for school activities will also be circulated and signed online.

This information assists communication saving vital time in an emergency. Please refer to the following link for the Operoo privacy policy: <https://www.operoo.com/privacy-policy/>

Thanking you for your support.

Kind regards,

Karen Sinclair
Principal
