

The Lunchbots

SCHOOL LUNCHES

FRESH, NUTRITIOUS, & DELICIOUS

The Lunchbots a fresh way in delivering school lunches right to your school.

The Lunchbots aim is to provide Glenmore Rd Public School children with fresh, healthy nutritious & delicious lunches delivered to your school office 5 days a week.

We also aim to reduce the use of single use plastics by using paper & reusable containers and drink bottles wherever possible.

The Lunchbots believe that schools have an important role in promoting healthy eating and physical activity to students and in providing an environment that supports a healthy lifestyle. The delivery of food services in school are an important part of the school environment modelling healthy food and drink choices that are tasty, interesting and affordable. They aim to put into practice nutrition messages taught in the classroom.

Families use the lunch order for many differing reasons and whether they use it regularly or as a treat, they should expect quality nutritious food. The Lunchbots can provide this including delicious treats *without excessive sugar, salt & chemicals*.

The majority of items on The Lunchbots menu are made from scratch using quality, seasonal ingredients. This means NO processed foods and NO frozen meat products.

Nutritionist endorsed, The Lunchbots work to provide smart, healthy choices in line with the NSW Healthy School Canteen strategy.

Adhering to the Food Standards Code including food handling, hygiene and food transport The Lunchbots hold current certification.

How It Works:

Orders are placed online using Flexischools & close 9pm the night before your delivery.

Orders are delivered in class baskets direct to the school office door just prior to lunch.

Empty, reusable containers are simply placed back in the class baskets for collection.

The website is www.thelunchbots.com.au, for the menu & other information.

The menu is flexible and also seasonal. Specials will appear from time to time.

Should you have any questions at all, please don't hesitate in contacting me directly
