5 GM107

Word Chain — a game for 2 to 4 students.

- 1 Students are dealt three cards each. The rest of the cards form a pick-up pile.
- 2 The first student places a card face up in the centre.
- 3 The next student joins on one of their cards to complete a **List Word**. If the student is unable to complete a word, they take a card from the pick-up pile.
- 4 When the pick-up pile finishes, any student who cannot complete a word misses a turn.
- 5 The first student to use all of their cards is the winner.
