APDH briefed the Council on the development of a new Student Welfare policy focused on positive learning environment. The working group, a combination of parents and staff, will meet in early June.

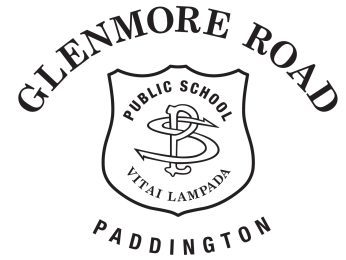

- P&C Report

P&C Treasurer Kate Collins presented a technology proposal. The proposal was high level and looks to integrate the current service and information based digital platforms used by GRPS into one platform, as well as other features around the teacher, student, parent, carer communications.

The platform being suggested is Kate's mother's business. Conflict of interest needs to be considered. The proposed cost of the platform set up is \$1,500 with the annual fee being \$9,000. RW is a digital professional and will review the schools requirements against the proposal. SH is considering the proposal from the teachers' point of view.
